vase descriptions

CLASSIC: With its timeless beauty and lasting strength, the Classic is one of our most elegant vases - it's easy to see why. It has an eight-sided shape enhanced by carefully beveled edges that create a look of enduring style. Celebrate life's simple pleasures with the ideal large vase for large monuments, the Classic.

CREST: The Crest features antiqued panels and pebble texture which combines to create an original tribute. Strength is ensured by die cast aluminum construction and enduring beauty is achieved through Metalcraft's special finishing process. With the Crest vase, your memorial will truly capture the unique spirit of the individual.

CROWN: One of our larger memorial vases, the Crown, is befitting royalty. With its touch of Christian symbolism, the Crown creates an air of respect around the monument. A subtle band featuring distinct etchings, highlight the intricate designs of the lower vase which lead to a wide base. Timeless, the Crown is a tribute which will reign into the future.

GEM: The simplistic beauty and timeless design of the Gem has made it a popular choice for years. Available in both our granite match and complementary finishes, the Gem adds simple beauty and style to any memorial. With our special finishing process, the Gem will continue to shine for years to come.

REGAL: The Regal offers an elegant contemporary design with traditional styling. Available in two styles, with or without cross, and offered in the complete line of Metalcraft's colors and finishes. The Regal can be ordered for upright monuments, or in two flush ground unit core-hole sizes.

REGAL CROSS: The Regal-Cross offers an elegant contemporary design with traditional styling. Available in two styles, with or without cross, and offered in the complete line of Metalcraft's colors and finishes. The Regal-Cross can be ordered for upright monuments, or in two flush ground unit core-hole sizes.

MEDALLION: The Medallion serves as a reminder of what was held dear in life. The vase is made of durable die cast aluminum with a simple, square design, enhancing the beauty of an optional emblem. Honoring religious beliefs, military duty, parental roles and other important affiliations, our emblems are artfully crafted out of a variety of durable materials. Throughout the years, the Medallion will honor the legacy of a life time.

PARAGON: The paragon vase remains unsurpassed in style and substance. We took the traditional lines that made this vase so popular and expanded them. Literally. The 6x10 is proportioned to complement larger monument applications and contemporary designs.
